No. 4, Minor Street.

CONTENTS OF VOLUME X.

No. XIX.

ANALYTICAL AND CRITICAL REVIEWS.

I. Clinical Illustrations of Fever, comprising a report of the cases treated at the London Fever Hospital 1828-1829. By Alexander Tweedie, M.D. Member of the Royal College of Physicians of London; Physician to the Fever Hospital, &c. London, 1830. Pp. 204, 8vo. 9

II. Clinique Médicale, ou Choix d' Observations recueillés à l'Hôpital de la Charité (Clinique de M. Lermenier). Par C. Andral, Professor à la Faculté de Médecine de Paris, &c. Deuxieme Edition, revue, corrigé et augmentée. Tome I.—II. Maladies de Poitrine. Paris, 1829.

Clinical Reports; or Selected Cases drawn from the Practice of M. Lermenier in the Hospital of La Charité. By C. Andral, Professor to the Faculty of Medicine in Paris, &c. The second edition, revised, corrected and enlarged. Volume I.—II. On the Diseases of the Chest. 26

III. A Manual of General Anatomy, containing a concise description of the Elementary Tissues of the Human Body. From the French of A. J. Bayle and H. Hollard. By S. D. Gross, M.D. Philadelphia. Grigg, 1828. Pp. 272. 39

IV. Traité Elementaire de L'Art des Accouchements, où Principes de Tokologie et d'Embryologie. Par Alf. A. L. M. Velpeau. 2 vols. 8vo. Paris. 1829.

An Elementary Treatise on the Art of Midwifery, or Principles of Tocology and Embryology. By Alf. A. L. Velpeau. . . . 47

V. The Anatomy, Physiology, and Diseases of the Teeth. By Thomas Bell, F.R.S. F.L.S. F.G.S.; Member of the Royal College of Surgeons in London, &c.; Lecturer on the Anatomy and Diseases of the Teeth at Guy's Hospital, and Surgeon Dentist

352053

to that Institution. 8vo. pp. 349, with plates. Philadelphia. Carey and Lea. 1830. 63

VI. Die Ohrentzündung; aus dem Jahrbücher der ambulatorischen Klinik zu Halle. Von P. Krukenberg, M.D. &c. Zweiter Band. Seite 203.
On Otitis, or Inflammation of the Ear. By P. Krukenberg, M.D. Professor of Medicine in the United University of Halle and Wittenberg. 76

VII. A Practice of Physic, comprising most of the Diseases not treated of in "Diseases of Females" and "Diseases of Children." By William P. Dewees, M.D. Adjunct Professor of Midwifery in the University of Pennsylvania; Member of the American Philosophical Society; Member of the Philadelphia Medical Society, &c. In two Volumes. Philadelphia. Carey and Lea. 1830. Pp. 833. 85

VIII. A Treatise on Hysteria. By George Tate, Member of the Royal College of Surgeons in London. London, 1830. Pp. 134, 8vo. 115

ORIGINAL COMMUNICATIONS.

IX. Observations upon the connexion between External Scrofula and Pulmonary Consumption. By Joseph Parrish, M.D. . . . 129

X. A Summary of the Climate and Epidemics of Savannah during the series of years from 1826 to 1829. By William R. Waring, M.D. 136

XI. Observations on the Endermic Application of Medicines. By William W. Gerhard, M.D. 145

XII. Case of Aneurism of the Arch of the Aorta. By Robert W. Haxhall, M.D. Richmond, Va. In a Letter to one of the Editors. 160

XIII. Case of Fractured Cranium, with considerable depression, successfully treated without resorting to the trephine. By Thomas F. Dale, M.D. of Pittsburgh, Pennsylvania; in a Letter to William Darrach, of Philadelphia. 164

XIV. Cases illustrative of the beneficial effects of a combination of Tartarized Antimony and Opium in Rheumatism. By James B. Findlay, M.D. of Circleville, Ohio. 167

XV. Some Observations on the use of Charcoal in Constipation of the Bowels. By Samuel George Morton, M.D. One of the Physicians to the Philadelphia Almshouse Infirmary. 170

XVI. Diseased state of several of the tissues of the arm and forearm, resulting from venesection badly performed. By William Woodson Waddell, M.D. of Athens, Georgia. 173

XVII. Two cases illustrating the use of the Uva Ursi. By William Woodson Waddell, of Athens, Georgia. 175

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Anatomy.—1. Enormous Stomach. 2. Membranes of the Brain. 177

II. Physiology.—3. Vaccine Virus. 4. Metallic Silver detected in the tissue of the organs. 5. The Bile. 6. The larynx. 7. Transfusion. 8. Spontaneous Combustion. 178

III. Pathology.—9. Aortitis. 10. Case of Abdominal Tumour. 11. Case of Somnolency. 12. Habitual Discharge of Blood from both Mammæ. 13. Peculiar Eruption in Children. 14. Intermittent Paralysis of a double Quotidian Type. 15. Experiments on the Coloration of Different Tissues. 16. Uterine Phlebitis. 17. Inflammation of the Spleen terminating in Suppuration. 18. Intermittent Ophthalmia. 182

IV. Therapeutics.—19. Tapping in Hydrocephalus. 20. Dulcamara in certain affections of the Skin. 21. Hysteria cured by the removal of a small Tumour from under the Breast. 22. Opiate Enemata in Delirium from Wounds. 23. On the use of Salicia in the Treatment of Intermittent Fever. 24. On the use of the Warm Bath in Delirium Tremens. 25. Inflammatory Diseases of the Eye, treated by stimulating applications. 26. Pyroligneous acid in Gangrene, Ulcers and Fungous Hæmatodes. 27. Belladona in Neuralgia. 28. Nitrate of Potassa in Scurvy. 29. Treatment of Poisoning from the bite of a Spider. 30. Treatment of Itching of the Scrotum. 31. Treatment of Puerperal Mania. 32. On the use of Lavements. 33. Morbid effects caused by Iodine. 34. Electricity and Galvanism. 190

V. Medical Jurisprudence.—35. Case of supposed Poisoning by Arsenic. By Dr S. Jackson, of Northumberland. 201

VI. Materia Medica and Pharmacy.—36. Salivation by Colchicum. 37. Metastasis of the External Action of Tartarized Antimony. 38. Turpentines Solidified by Magnesia. 39. The Extraction of Morphia Facilitated by the Fermentation of the Opium. 40. Residue after the evaporation of the mother-waters of sulph. quinia. The existence of a new alkali in Peruvian bark denied. 41. Effects of Stramonium. 42. Iodine Baths. 43. Medical Properties and Preparation of Animal Charcoal. . 204

VII. Surgery.—44. Fracture of the Fibula. 45. Dislocation of the first Phalanx of the Thumb. 46. Excision of the Elbow Joint. 47. Excision of the Knee Joint. 48. Scrotal Hernia. 49. Spasmodic Strictures. 50. New operation for Ectropium. 51. Cystocele. 52. Excision of an Ulcer of the Scalp. 53. Luxation of the Ulna backwards. 54. Extirpation of the Upper Jaw. 55. Bilateral Operation. 56. Fungous Tumours under the Scalp. 209

VIII. Midwifery.—57. Case of Retroverted Uterus treated by Puncture. 58. Retroflexion or partial retroversion of the Uterus. 59. Premature Labour. 60. Cæsarian Operation. 61. Cæsarian Operation after the Death of the Mother. 213

IX. Chemistry.—62. New Process for preparing the Bicyanuret of Mercury. 63. Metallic Radical of Magnesia. 64. Best Precipitant of Morphia. 65. Effects of Oxygen Gas in Respiration. 216

MISCELLANEOUS ARTICLES. 219

No. XX.

ANALYTICAL AND CRITICAL REVIEWS.

I. Researches principally relative to the Morbid and Curative Effects of Loss of Blood. By Marshall Hall, M.D F.R.S.E. &c, &c. London, 1830. Pp. 303, 8vo. 221

II. Sul Viaggio fatto a Napoli nel 1826. Discorso letto a suoi discepoli al cominciare dell' anno scolastico 1826—1827. Dal Professore Giacomo Tommasini, uno dei 40 della Società Italiana. Napoli, 1828.

Voyage Médical en Italie fait en l' année 1820. Deuxieme Edition, corrigée et augmentee de nouvelles observations faites dans un second voyage en 1824. Par le Dr Louis Valentin. Paris, 1826. 240

III. A Treatise on Poisons, in relation to Medical Jurisprudence, Physiology, and the Practice of Physic. By Robert Christison, M.D., Professor of Medical Jurisprudence and Police in the University of Edinburgh, &c. Edinburgh, 1829. Pp. 698. 279

IV. Clinique Médicale, ou Choix d' Observations recueilliés à l'Hôpetal de la Charité (Clinique de M. Lermenier). Par G. Andral, Professeur á la Faculté de Médicine de Paris.

Clinical Reports, or Selected Cases drawn from the Practice of M. Lermenier, in the Hospital of La Charite. By G. Andral. . . 311

V. Pathological and Practical Researches on Diseases of the Brain and the Spinal Cord. By John Abercrombie, M.D., Fellow of the Royal College of Physicians of Edinburgh, &c. Pp. 444. Edinburgh, 1828. 325

VI. Traité de la Péritonite Puerpérale, par A. C. Baudelocque, Docteur et Agrégé en exercise de la Faculté de Médecine de Paris, Adjoint de l'Académie Royale de Médicine, Membre de la Société de Médecine de Paris, Correspondant de la Société Médicale d'Amiens et de la Société Royale de Médecine de Bordeaux; chargé de la surveillance des sages-femmes du bureau de charité du 10me arron-

dissement; Ouvrage Couronne, par la Société Royale de Médicine de Bordeaux. Paris. Gabon, 1830. Pp. 379, 8vo.

A Treatise on Puerperal Peritonitis. By A. C. Baudelocque, Doctor, &c. of the Faculty of Medicine of Paris, Adjunct Member of the Royal Academy of Medicine, Member of the Medical Society of Paris, &c. &c. 337

ORIGINAL COMMUNICATIONS.

VII. Cases of Congenital Incontinence of Urine. By John C. Otto, M.D. One of the Physicians to the Pennsylvania Hospital. 364

VIII. A case of Singular Affection of the Nervous System, with some additional observations. By Charles D. Meigs, M.D. 371

IX. Hints on the Comparative Effects of Cold Water. By Thomas D. Mitchell, M.D. of Frankford, Pennsylvania. 379

BIOGRAPHICAL NOTICES.

X. Biographical Notice of M. A. Desormeaux, Professor of the Faculty of Medicine at Paris, Titular Member of the Royal Academy of Medicine, Physician-in-chief to the Hospital De la Maternité, Member of the Legion of Honour. 384

XI. Biographical Notice of Soemmering. 390

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Anatomy.—1. M. Bérard, senior, on the Veins. 394

II. Physiology.—2. Physiological Phenomenon produced by Electricity. 3. Cause of Muscular Motion. 4. Transfusion of Blood. 5. On the Globules of the Humours of the Eye. 6. Chemical Solution of the Stomach by the Gastric Juice. 395

III. Pathology.—7. Humid Gangrene of the Lips. 8. Gangrene of the Mouth. 9. Appearances of the tongue in disease. 10. Uterine Source of Neuralgic Pains. 11. On the Serous Effusions which occur in the Brains of Old Persons. 12. Abscess behind the Pharynx consequent upon the Retrocession of Erysipelas of the Face. 13. Rupture of the Stomach, succeeding to violent spasm of that organ. 399

IV. Therapeutics.—14. Remedial Effects of Lead. 15. Treatment of Hydrophobia. 16. Treatment of Chorea. 17. Mercurial Pur-

gatives in Purpura. 18. Phlegmonous Erysipelas successfully treated by the Nitrate of Silver. 19. Treatment of Delirium Tremens. 20. Inhalation of Iodine in Consumption, Catarrh, &c. 21. Cure of Habitual Constipation. 22. Rhubarb in Hemorrhoids. 23. Chloride of Soda in Scrofulous complaints. 406

V. MEDICAL JURISPRUDENCE.—24. Homicidal Monomania. . . . 414

VI. MATERIA MEDICA AND PHARMACY.—25. Corrosive Sublimate employed in Baths. By M. Wedekind. 26. Salicine not an Alkali. Mode of Preparation, &c. 27. Morbid effects arising from the too long continued use of Iodine. By Dr Jahn. 28. Extract of Asparagus Root. 29. Peruvian Bark. 416

VII. SURGERY.—30. Wound of the Trachea and Œsophagus. 31. Choroiditis. 32. Division of the Submaxillary Nerve for Neuralgia. 33. Brachial Aneurism. 34. Morbus Coxarius. 35. Prolapsus Ani. 36. Umbilical Hernia in Infants. 37. Plegmonous Abscess of the Prostate. 38. Strangulation of the Spermatic Cordin the Abdominal Canal. 39. Stercoraceous Fistula. 40. Extirpation of Cancer of the Rectum. 41. Neurosis of the Lower Jaw. 42. Aneurism of the Arteria Innominata, Ligature beyond the Tumour. . 419

VIII. MIDWIFERY.—43. Hour-glass Construction of the Uterus. 44 Cæsarean Operation after the death of the Mother. 45. Rupture of the Uterus; recovery. 429

IX. CHEMISTRY.—46. Nature of Bitter Almonds. 47. Oxamide. 48. Views of Berzelius respecting Ammonia. 430

MISCELLANEOUS ARTICLES.

Observations on the Climate of St Augustine, East Florida.—Novel Apology for Plagiarism.—New Journal.—Notice of "Outlines of the Science of Life, which treats physiologically of both Body and Mind; designed only for Philosophers and other candid Persons. To which are added Essays on other Subjects. By Elisha North, M.D., &c. &c."—Notice of "Lectures on the Theory and Practice of Surgery. By John Abernethy, F.R.S. &c."—Notice of "The Influence of Modern Physical Education of Females in producing and confirming Deformity of the Spine. By E. W. Duffin, Surgeon."—Philadelphia Medical Institute.—Philadelphia Association for Medical Instruction.—School of Medicine.—Pennsylvania Hospital.—Account of Patients admitted into and discharged

from the New York Hospital, and their diseases, during the year 1829.—Report of the number of Patients, with the nature of their cases, that were remaining in the Bloomingdale Asylum, New York, on the 31st of December 1828, and those admitted and discharged during the year 1829.—Return of Deaths within the City of Charleston, from January 1, 1829 to January 1, 1830.—Summary of the Thermometer, Weather, and Diseases, from January 1, 1829 to January 1, 1830. 433
